

CASIO SPORT

PRO TREK

For lofty goals: the new PRW-1300 series is the perfect companion for all mountain climbers, hikers, and outdoor fans. It is also the thinnest PRO TREK watch ever (11,5 mm thin). The new, flat case design integrates indispensable functions like altimeter, barometer, thermometer, illuminator, and more. PRO TREK — advanced watch technology for a highly motivated target group which wants to reach new heights.
